

V-300C Excavator Mounted Vibratory Hammer

Description

V-300C Excavator mounted vibratory hammer adopts the vibration to drive piles. It is always operated with excavator and installed on the front end of excavator. As we see from its picture, it is composed of hammer, vice arm and clamp. And vibro pile driver is suitable for excavators of 25t- 30t. In addition, it can strike piles within 9meters and if the excavator is refit, can drive 12 -meter length piles.

Features

1. V-300C Excavator mounted vibratory hammer is easy and flexible to operate.
2. It makes little noise and costs little to maintain.
3. Vibro pile driver is of precise design and reliable performance.
4. The hammer is efficient and effective.

Parameters

V-300C Excavator Mounted Vibratory Hammer	
Hydr. System Pressure (bar):	300
Eccentric Moment (kg.m):	6
Frequency (rpm):	2400
Centrifugal Force (t):	38
Hydr. Oil flow (lpm):	181
Size(W/O vice arm) (mm):	1245*880*2235

Yong'an Machinery Co., LTD.

Add: No.88 Qing Ao Hill, Haian Haiyang Industrial Park, Wenzhou, China, 325205.

Fax: +86-577-65271769

E-mail: sales@yonganvibro.com

Weight of vibrator (kg):	1650
Vice arm (m):	2
Clamp C15 (kg):	455
Suitable excavator (t):	25~30

Applications

1. Due to its small size and simple operation, V-300C Excavator mounted vibratory hammer is widely adapted for various construction environments, such as drainage maintenance, riverbank reinforcement and marshal operations.
2. Besides, vibro pile driver is agreeable for steel sheet piles, larson piles, concrete piles and pipe piles as well.

Matters Should Be Noticed

The weight of excavator should be taken into consideration. And centrifugal force of V-300C excavator mounted vibratory hammer and limit of pile length should also be considered.

Payment and Package

1. 30% deposit payment should be paid after assigning the contract. Full payment should be paid before delivery.
2. Bare excavator mounted vibratory hammer would be wrapped with thin film or packaged in wooden boxes.

Yong'an Machinery Co., Ltd. is a professional company that integrates the design and development, manufacturing, selling and leasing of vibratory hammer series products. Presently, we can produce not only traditional DZ and DZJ series vibratory hammer, but also vibratory hammer available in different construction environments like excavator mounted vibratory hammer. And our products are sold to Taiwan and many overseas countries including Japan, South Korea, Egypt, Malaysia, Ecuador, Russia, Philippines, Liberia, Indonesia, Equatorial Guinea, Ghana, Vietnam, etc. It has substantially improved its popularity and influence in the field of machinery industry globally.
